OBJECT DISTANCE CALUCLATION

A PROJECT REPORT

Submitted in partial fulfillment of the requirements for the award of the degree of

Bachelor of technology

in

Information Technology

BY

P UDAY BHASKARA RAO **Roll No: 20331A1286**

V MANOJ **Roll No: 20331A12B9**

M VINITHA VARSHINI **Roll No: 20331A1276**

Under the guidance of

Dr. B.Srinivas

Associate Professor

DEPARTMENT OF INFORMATION TECHNOLOGY

MVGR COLLEGE OF ENGINEERING (Autonomous)

VIZIANAGARAM-535005, AP (INDIA)

(Accredited by NBA, NAAC, and Permanently Affiliated to Jawaharlal Nehru Technological University Kakinada)

October, 2023

Maharaj Vijayaram Gajapathi Raj (MVGR) College of Engineering (Autonomous)Vizianagaram

CERTIFICATE

This is to certify that the project report entitled "OBJECT DISTANCE CALCULATION" being submitted by ***P UDAY BHASKARA RAO, V MANOJ, M VINITHA VARSHINI*** bearing registered numbers ***20331A1286, 20331A12B9***, ***20331A1276*** respectively, in partial fulfillment for the award of the degree of "***Bachelor of Technology***" in ***Information Technology*** is a record of bonafide work done by them under my supervision during the academic year 2019-2020.

Dr.P.Srinivasa Rao
Professor, Head of the Department,
Dept., of Information Technology,
MVGR College of Engineering(A),
Vizianagaram.

Dr. B.Srinivas,
Associate Professor,
Dept., of Information Technology,
MVGR College of Engineering(A),
Vizianagaram.

External Examiner

ACKNOWLEDGEMENT

We place on record our heartfelt appreciation and gratitude to ***Dr. B.Srinivas*** for the immense cooperation and navigation as mentor in bringing out the project work under his guidance. His uncompromising attitude to bring out the best with constructive suggestions inspired us to achieve the results set forth for the project work. We are deeply indebted to him for his excellent, enlightened and enriched guidance.

Let us lay it on the line, we should thank ***Dr. P.Srinivasa Rao*** who remained all through our project work as a great source of inspiration for his resourceful counsel and for inducing in us, his empirical knowledge that provided the goal and destination of our project.We consider it to be our privilege to express our deepest gratitude to ***Dr.P.Srinivasa Rao***, Head of the Department for his valuable suggestions and constant motivation that greatly helped the project work to get successfully completed.

We also thank ***Dr. K. V. L. Raju***, Principal, for extending his utmost support and cooperation in providing all the provisions for the successful completion of the project. We sincerely thank all the members of the staff in the Department of Computer Science & Engineering for their sustained help in our pursuits. We thank all those who contributed directly or indirectly in successfully carrying out this work.

P. UDAY BHASKARA RAO
V. MANOJ
M. VINITHA VARSHINI

DECLARATION

I hereby declare that the work done on the dissertation entitled "***OBJECT DISTANCE CALCULATION***" has been carried out by us and submitted in partial fulfillment for the award of credits in **BACHELOR OF TECHNOLOGY** in **INFORMATION TECHNOLOGY** of MVGR College of Engineering(Autonomous) affiliated to the Jawaharlal Nehru Technological University (Kakinada).

The various contents incorporated in the dissertation have not been submitted for the award of any other degree of any other institution or university.

P. UDAY BHASKARA RAO (20331A1286)
V. MANOJ (20331A12B9)
M. VINITHA VARSHINI (20331A1276)

ABSTRACT

Now a days there are more accidents happening on road. More lives are in danger. This project will help to calculate the distance of an object from the sensor. It can also give an alarm if the object is too close based on the distance. This project can be used in vehicles. As this is developing generation this project can be helped in manufacturing the Automated cars with self-driving.

This project is based on IOT. In this we use sensor, Arduino, Alarm, Batteries, LCD display etc. The sensor will detect the distance between the object and the sensor, and it sends the data to the Arduino. With the help of the program written in the Arduino if the distance is less than the required then it sends the signals to the alarm to ring, otherwise it sends the distance to the LCD display to show the calculated distance of the object.
